

16 November 2022

to Mark

Thank you for the information. Both maps have been seen before (dated 2021) and neither offers any difference about the Church Entrance. One does, however, show the entry to Pine Lakes, south of the development and the deviation request.

Again, to gain entrance to the new development, this map shows using roads in Pine Lakes. Again this may be outside the FDOT, but our question is does ELS claim ownership of the roads that connect from your US 41 oversight through Pine Lakes, connected to 3 entrances off of Circle Pine Road.

I request you place this email in the file for this ELS application process.

Thank you again for your time.
As Always and Sincerely I am,

Ron Thoreson

Ron,

Good speaking with you earlier, per your request I have attached a copy of the Master Concept Plan and the minutes/checklist for the recent pre-application meeting with FDOT and representatives for the developer of the French Parcel. If you have any questions, feel free to contact me.
