

20 November 2023

This is the development plan, submitted by ELS / Kimley Horn to Lee County for the French Property. Forthcoming will also be communication with the FDOT, which has approved the "driveway" request from ELS to add the limited left turn left turn southbound us 41 entrance - egress (no Northbound access) from the French Property.

Our initial plan is to call for a community wide meeting, (time date yet to be determined) review where we are, and ask the community how they want to proceed. The good news is that this is happening in season, meaning we think we should have good community participation.

The questions still to be answered by ELS is Who Owns the Roads they want to use to access French Property, why the Lee County approved formation resolution ZAB 85 97 we believe is being violated, and why the Lee County Ordinance requiring 75% approval of the Land Owners (ELS only controls 69%) has not been done.
